

## What Others Say About Us

“

*The Service I experienced from 0800 2 Fix It was far superior to the larger multi-national companies I was encouraged to use!*

*I am motivated to write this as I have just experienced exceptional service delivered by 0800 2 fix it for vehicle windscreens.*

*Working for many years with a large organisation utilising in excess of 50 cars, I have had my share of windscreens replaced. Dictated to by the Firm's insurers' we were required to deal with a large multi-national windscreen firm for our repairs and replacements. While I appreciate the work can be dirty and sometimes difficult, I can say I have never before experienced the high standard of workmanship expected. While many of the problems were minor - such as the upholstery, steering wheel, dash board top or screen itself left with dirty marks, or of greater concern, the paintwork on the bonnet edge and/or inner panels left chipped or scratched, this was not the case with the recent work carried out by 0800 2 Fix It.*

*He not only delivered, or exceeded expectations, on all commitments given, as above, the finished job was exceptional. I would have no hesitation in recommending him for all windscreen work in the future.*
